

To the SADSAA Provincial Chairman

It has been brought to the attention of the Action Committee, that SADSAA 's affiliated bodies are transgressing SASCOC's code of conduct when it comes to hosting a tournament.

SASCOC's policy strictly states that no alcohol will be consumed during the course of the tournament and especially not while live on social media.

One of the major problems that SADSAA have been taken to task with is the fact that we are always issuing a "STRAF DOP" and this while it being live streamed on social media. We know that this has always formed part of our tournaments and is seen as being part of fun and camaraderie building, but unfortunately if we have to conform to their policies.

In saying this we ask the Provincial Chairman to please convey this message down to their Tournaments Committee.

SADSAA will be making amendments to the set of Tournament Rules with regards to hosting tournaments.

Kind regards

SADSAA Action Committee.
